# Higher Education

Newly Built, and Freshly Adapted

**Princess Nora Bint Abdulrahman University**

## Education Solutions

### Designers name their favorite new solutions for education environments

**Becca Cavell, FAIA**

Principal  
THA Architecture  
Portland, Oregon

**Sedia Systems: JumpSeat**

[sediastystems.com](http://sediastystems.com)  
Reader Service No. 210

"Designed by Portland, Oregon-based Ziba Design, the JumpSeat is the epitome of sleek functionality, and this year brings the release of a new wall-mounted version of this innovative compact seating solution."

**Egan: EganAero**

[egan.com](http://egan.com)  
Reader Service No. 211

"I love the simplicity and versatility of white boards, and Egan's new product line, EganAero, utilizes the strength and thin profile of Corning Gorilla Glass (think iPhones) to create shadow-free writable surfaces."

**Knoll: Power Cube**

[knoll.com](http://knoll.com)  
Reader Service No. 212

"Power Cube is another product that enhances informal, collaborative learning opportunities. I'm a huge fan of white boards and it's fun to see writeable surfaces appearing in table form, especially power-rich mobile tables."

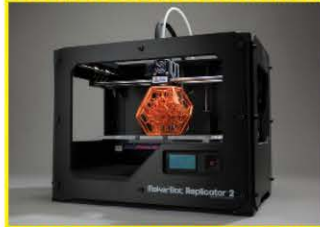

**Sean O'Donnell, AIA**

Principal and Leader  
of the Primary and Secondary  
Education Practice Area  
Perkins Eastman  
Washington, DC

**MakerBot: Replicator 2**

[store.makerbot.com](http://store.makerbot.com)  
Reader Service No. 213

"Relatively inexpensive 3D printers like this are changing the way we work. As they are introduced into schools, they will inspire teachers and students to transform classrooms and labs into 'Maker Spaces.'"

**Cree: AR Series Architectural LED Troffers**

[cree.com](http://cree.com)  
Reader Service No. 214

"Innovations in LED technology are beginning to achieve fixtures that offer high efficacy and great color rendition that are cost effective, conserve energy, and help create a high performance learning environment."

**Landscape Forms: Bicilinea**

[landscapeforms.com](http://landscapeforms.com)  
Reader Service No. 215

"Our landscape architect, LAB, specified these beautiful bike racks to sit in front of our new Dunbar High School. They look like sculptures and everyone stops to admire them as they approach the building."

**Stacy Reed, IIDA**

Senior Interior Designer,  
Project Manager, and  
South Central Education and  
Cultural Practice Area Leader  
Gensler  
Austin

**Bernhardt Design: Code**

[bernhardtdesign.com](http://bernhardtdesign.com)  
Reader Service No. 216

"Code provides a great way to create a sense of privacy within busy student spaces, and humanizes large volumes such as atriums. The collection allows for an interesting combination of lounge products, and multiple fabrics can be used on a single piece."

**Davis: Line**

[davisfurniture.com](http://davisfurniture.com)  
Reader Service No. 217

"This wall-mounted hanging storage element turns something mundane into an art form. Line comes in fantastic colors and wood finishes, and saves space with its pull-down hanging bar."

**CanFocus: MyFocus**

[canfocus.com](http://canfocus.com)  
Reader Service No. 218

"Workstations typically used in offices are becoming more common in educational spaces, particularly for graduate students. MyFocus integrates with phones and other devices, allowing the user to manage their personal study and group collaboration time."
