Beam + Ply Chair

Beam

Maximize your space without sacrificing style with the Beam Series. Perfectly designed for learning and training environments, this series offers configurable seating options in two, three or four seat sections. Choose from multiple seating styles to fit a variety of applications. Ideal for straight seating configurations, the Beam Series ensures every space is utilized efficiently while maintaining a clean, organized look.

STANDARD SEATS: Turandot, Gnosi,® Ply, Tecton

Ply Beam

Wire Management

Single Pedestal

When it comes to accommodating more complex layouts, such as those required in classrooms and lecture halls, Single Pedestal seating emerges as the superior choice. This type of seating excels in radius row configurations, where flexibility and adaptability are key. The unique design of Single Pedestal seating allows for unlimited seat positioning, which is essential for customizing layouts to fit specific architectural nuances.

STANDARD SEATS: Turandot, Gnosi,® Ply, Tecton

Tecton Single Pedestal
