Jump seat®

sediasystems

Innovation begins where rigidity ends.

The JumpSeat exists because we refused to accept limitations. We bent wood. We bent physics. We bent expectations.

Designed for those who challenge conventions.

JumpSeat is a bold solution for architects, designers and planners who see space differently, who push limits and who want to make room for more.

Conceived by Ziba Design as a smart fix for a tight auditorium, Sedia Systems scaled this revolutionary design into a full platform for transformative seating worldwide.

Fixed seating that bends to your vision.

The boldest thing in the room—until it vanishes.

JumpSeat isn't just a chair. It's a redefinition of what's possible in space design. When support and structure disappear at a moment's notice, you're not just solving a problem, you're rewriting reality.

Collection Features

- Flex spring seat
- Supports up to 600 lb / 272 kg
- Minimum 22 in / 56 cm center-to-center seat spacing
- Antimicrobial finish
- Custom direct printing

Standard

Born to make space work smarter.

Where space is limited but expectations are high, JumpSeat Standard delivers. With its award-winning design and space-saving capabilities, it brings comfort and efficiency to lecture halls, auditoriums, and beyond—seamlessly supporting dynamic environments in education, healthcare and the workplace.

Model Features

- 7.5° back angle
- Straight or radius row configurations
- Flat or tiered floor installations
- Fixed or movable base

90

Built to flex where others can’t.

JumpSeat 90 thrives where traditional seating falls short. Designed for high-traffic, space-conscious environments, it delivers a transformative seating solution. Mounting to the floor and flush to the wall, it offers reliable seating in the tightest of spaces from narrow corridors to quiet work zones and library stacks.

Model Features

Straight back

Straight or radius row configurations

Flat or tiered floor installations

Wall

Small footprint with a big impact.

JumpSeat Wall makes every inch count. Its innovative design mounts flush to the wall and folds cleanly out of the way—always ready when needed, nearly invisible when not. Ideal for healthcare settings, hallways, waiting rooms and other public areas where space is at a premium.

Model Features

Slim 4 in / 10 cm profile when closed

Mounts 6 in / 15 cm off the floor for easy cleaning

Let your seat speak volumes.

Transform functional seating into a design statement with JumpSeat WOW. This innovative option allows for high-resolution custom graphics to be printed directly onto any JumpSeat model. From subtle patterns to bold expressions, tailor each chair to reflect your brand, express creativity or enhance your decor.

sediasystems

Transforming spaces through revolutionary design.

At Sedia Systems, we believe great design makes the impossible, possible. Our innovative fixed seating and acoustic solutions help clients shape distinctive environments with confidence. With a deep understanding of their needs, we deliver lasting value and partner every step of the way with passion, precision and purpose.
