sediasystems + Humanscale

A collaboration that helps visionaries redraw the limits of space.

Sedia Systems redefined what fixed seating could be. Humanscale redefined how comfort should feel. Together, we give designers a full range of possibilities—from systems that maximize capacity to solutions that elevate ergonomics and craft. The result: environments that are efficient and inspiring, beautiful and enduring.

M60

Swing Away

M60

Swing Away

Order that moves with people.

With auto-return and torsion-spring precision, the M60 keeps rows aligned while allowing seats to move naturally. A range of styles and finishes ensures the system adapts beautifully to any learning space.
